Valve World Asia 2009 Conference & Expo

Suzhou, China
23 and 24 September 2009

www.valve-world.net www.valve-world-asia.com

Advance Programme

of the Valve World Asia 2009
Conference & Expo in Suzhou

The Valve World Asia 2009 Conference & Expo will be held in the Suzhou International Expo Center in Suzhou, China. Following on to the huge success of past Valve World Conferences and Expos, the Valve World Asia 2009 Conference & Expo promises to be a valuable meeting point for valve professionals from all over the world with a special emphasis on recent developments in China. Piping and valve professionals from West & East can update their knowledge of valve

applications in a variety of industries with a clear focus on the chemical, petrochemical, power generation, oil & gas and process industries. The event will be bi-lingual and all presentations will be simultaneously translated in Chinese and English. The combination of a content-focused, end-user driven conference, a social programme, plant tours and a hands-on exhibition which will offer a unique international platform for content and business.

The leading educational and networking event for valve and piping professionals

The conference programme will include paper presentations in parallel sessions and workshops which will offer delegates the opportunity to discuss practical aspects of the applications of valves. The papers can be of all relevant kinds, e.g. overviews, case histories backed by supporting data, typical applications, new technologies, failure reports and service experience.

Workshop programme

In addition to the paper presentations, the successful workshop programme is a regular element of the Valve World Conference format. The workshops are an excellent opportunity for conference delegates to share their own experiences with industry experts

and discuss their day-to-day problems in a more informal atmosphere. Workshops are organised and run by members from either the Steering Committee or experts in the field.

Valve World Exhibition

The Valve World Asia 2009 Expo will be held in parallel with the conference in the Suzhou International Expo Center in Suzhou, China. The Exhibition will offer the latest in technical advances in the field of valves and valve applications and flow control technology and associated products. The

Co-chairman Ralph-Harry Klaer presenting a keynote speech at the previous Valve World Asia Conference

power-generation, onshore and offshore will be pleased to give you an update on the availability of their products. If you would like more information about the Valve World Asia Expo, please contact Mrs Judith Wanjala (English Speaking) at Tel: + 31 575 585 270 or Mrs Gao Yan (Chinese Speaking) at Tel: + 86 21 6351 9609 or email at vw2009.expo@kci-world.com. Please check page 4 for an overview on the exhibitors.

Further details on the conference programme with a preliminary timetable can be read on page 3

Register Now

Save money and register in advance. Attendees who register as delegates and pay before 21 July 2009 can benefit from the early bird fee of 850 Euro or 6500 RMB. The fee includes access to all sessions and workshops, access to the conference proceedings online, access to the exhibition and two lunches. If you wish to attend the Valve World Asia Conference dinner you will have to register at an additional fee separately. If you wish to register with multiple employees of your company, please contact

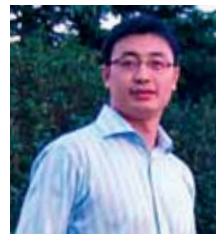

Yuzhong Shen
Conference Secretary

Mr Yuzhong Shen for the special "4 delegates for the price of 3" offer. Please mail to : vw2009.conf@kci-world.com

Welcome at Valve World Asia

The Valve World Asia conference is an exciting event for worldwide participants from the industry, renowned end users, valve manufacturers and industrial associations who will, openly be sharing experiences, best practices and discussing

technical issues towards a closer collaboration amongst the industry for 2 days. As a participant of Valve World Asia 2007 conference, I was impressed by the knowledge of the audience, the quality of speeches and group discussions, as well as the beneficial deliverables that many of us received. As the chairman of the Valve World Asia 2009 Conference, I sincerely invite you to join us in the conference to construct another great event.

Steering Committee

Valve World would like to thank the members of the Steering Committee who have selected the paper presentations and compiled the conference programme for this year's Valve World Asia Conference. Thanks to their commitment to the advancement of valve and flow control technology in particular, this conference will offer a wide variety of interesting and topical paper presentation. It has been a pleasure to work with such a dedicated group of professionals.

Valve World Asia 2009 Conference & Expo

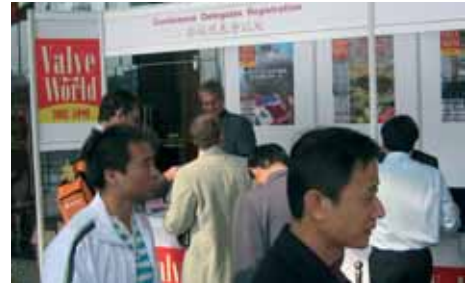

What makes the Valve World Asia show so unique?

That's a question that Mr Sjeff Roymans, Valve World Editorial & Conference Director, is often asked by newcomers to the Valve World community. For readers who have not yet attended, he has summarized some of the main features below:

Sjeff Roymans
Conference Director

- Independent steering committee guarantees high quality programme
- Strong end user input: mainly end users in the committee
- A good balance of experts from the East and the West
- A bi-lingual simultaneously translated event
- Active participation thanks to the workshops
- Participation of working groups
- Seminars on market statistics and product-market developments
- Multi-lingual promotion in Chinese, English, German, French, Italian and Russian
- An integrated Exhibition, coffee and lunch breaks in the Expo
- Comprehensive social programme, including conference dinner, cocktails
- Technical plant tour
- Worldwide support from leading associations

Suzhou – Worthwhile a visit

The Suzhou International Expo Center is located in the core area of Suzhou Industrial Park (SIP) and has over 200,000 square meters of exhibition space. The Center also features state-of-the-art conference facilities including simultaneous translations systems. Nicely located at the lake it is just 80 km from the Shanghai Hong Qiao Airport and 120 km from Pu Dong International Airport from where Valve World will organize a shuttle service. Moreover there

are almost 95 trains arriving and departing in the Suzhou Railway station every day including a high speed train (35 minutes) connection with Shanghai.

Moreover, Suzhou is an ideal place to combine business with pleasure. In Suzhou the ancient water towns of Zhou Zhuang, Tong Li, Mu Du, Lu Zhi, Jin Xi, Qian Deng and Sheng Zhe are the best preserved examples of a thousand years old life style south

of the Yangtze River. The simple and unsophisticated streets, the long canals and water lanes, the meandering rivers, the classic bridges and world famous parks, are all a wonderful portrayal of life in Suzhou Old Town. Furthermore there is a wonderful art museum and a silk museum. So definitely worthwhile a visit or as TD Lee put it: "don't know what paradise looks like, but if it is half as beautiful as Suzhou then it must be great"

Partner programme

Valve World will organise a partner programme for any family and friends who may be joining you in Suzhou. The programme will include invitations to all social functions such as the welcome reception, the lunches and the conference dinner. The

highlight of the programme will be an exciting and cultural tour of the historical city of Suzhou on Wednesday 23 September. The tour will show you the best preserved examples of thousands years old life style south of the Yangtze River. The simple

and unsophisticated streets, the long canals and water lanes, the meandering rivers, the classic bridges and world famous parks, are all a wonderful portrayal of life in Suzhou Old Town. Please use the registration form to sign up for the partner programme.

Valve World Asia 2009 Dinner

The Valve World Dinners are the traditional highlights of every Valve World event, as well as excellent networking opportunities, and the Valve World Asia 2009 Dinner promises to be no exception to this rule. The Valve World Asia Conference & Expo 2009 Dinner will be held at the Renaissance Hotel Suzhou on Wednesday September 23.

Hotel and Transportation

In cooperation with the Suzhou Hotel Service, Valve World holds a block of rooms at a specially negotiated rate in a number of hotels in Suzhou nearby the Suzhou International Expo Center. To take advantage of these rates, fill out the hotel reservation form on our websites: www.valve-world.net or www.valve-world-asia.net

The Suzhou Hotel Service will also operate a shuttle service between the airport and the conference hotels. If you would like to take advantage of this service, there is also a form to fill out using the same weblink as above.

Conference Administration

The conference administration is the responsibility of Valve World (a brand of KCI Publishing BV), to whom all enquiries should be addressed. For more information please contact:

Supported by

Wednesday 23 September 2009

Plenary Session, Chair: Kevin Jiang, Dow Chemical, China			
9:00	Opening by Chairman Mr Kevin Jiang, Dow Chemical, China		
9:30	End user project experiences in the Chemical Process Industry by Mr Ralph-Harry Klaer and Mrs Cuizhen She, Bayer, China		
10:00	Valve application and maintenance experiences, Mr Zhou Min, PetroChina, China		
10:30 - 11:00: Tea / Coffee break & Expo visit			
	Room A, Chair: Ralph-Harry Klaer, Bayer, Germany	Room B, Chair: Mr Han Jian Rong, Stard, China	Room C
	Maintenance	Materials	Training course, part 1
11:00	ASSETAGZ - Managing your assets just got a lot easier, Hiten Kantelia, 4hsolutions, UK (9017)	Fluoropolymer lined ball valve design breakthrough, Bill Hayes, Crane, USA (9032)	Practical guidelines on purchasing API monogram equipment by Lanny Gookin, API, USA
11:30	New Valve Commissioning Extending the Life-Cycle of Critical Service Valves, Dean Chisholm, Sealweld Corporation, Canada (9031)	New system of classification and designation of valves & actuators, Ivan Ter-Mateosyants, S & I Valve Manufacturers Association, Russia(9024)	
12:00	The importance of an easy and effectively maintenance on a butt weld ends quarter turn valve. The Development of the top entry design, Francesco Bracchi, ORTON, Italy (9005)	Foundry practice on alloy steel casting, Neway, China	
12:30 - 14:00: Lunch break & Expo visit			
	Room A, Chair: Bruno Martin, Technip, France	Room B, Chair: Leo Li, Metso Automation, China	Room C
	Design	Actuators/Automation/Controllability	Training course, part 2
14:00	New technical solutions for design of valves for pressure and temperature reducing desuperheating units, Vladimir Ermolaev, SOUZ-01Firm, Russia (9026)	Using a control valve Static Controllability Index to find the optimum valve configuration, Henk Hinssen, iHandl Engineering, Belgium (9037)	Practical guidelines on purchasing API monogram equipment by Lanny Gookin, API, USA
14:30	Innovative approach to ESP isolation for FCC unit in oil refinery, A.A. Majmudar, Fouress Engineering, India (9006)	Maintenance of ESD Valves: Increased safety without loss of availability, Sebastian Bachmann, Siemens AG, Germany (9022)	
15:00	Application of digital technology in research and development of safety valve, Chen Dianjing, Beijing aerospace petrochemical T&E Co, China (9011)	Remote automation of mechanical devices for partial stroke valve testing, Michael A. Mitchell, Cameron, USA (9010)	
15:30	Advanced science and technology of automatic steam trap, Hu Shengli, Beijing Baorose Technology Co., Ltd, China (9003)	Fast and safe exchange of valve positioners in a running process, Sebastian Bachmann, Siemens AG, Germany	
16:00	Design, process and technical progress of high-parameter metal seated wear-resistant ball valve, Qiu Xiaolai, Chaoda Valve, China (9028)	Actuation for natural gas transmission pipelines: understanding the competing concepts of gas-over-oil & direct gas actuators, Russ Robertson, Cameron, USA (9013)	
16:30		The CONVAL® 8.x approach to predict valve reliability, Henk Hinssen, iHandl Engineering, Belgium (9038)	
17:00 - 18:00 :Tea / Coffee break & Expo visit			
19:00 : Conference Dinner			

Thursday 24 September 2009

Plenary Session, Chair: Kevin Jiang, Dow Chemical, China			
8:30	Overview on general trends in procurement and applications of valves, Mr Wu Qing, CNOOC, China		
9:00	China castings can be good, Saad-Al-Shiha, Saudi Aramco, Saudi Arabia (9025)		
9:30	Cooperation with Chinese End Users and Valve manufacturers to reduce fugitive emissions from Chinese GB Valves, Barrie Kirkman, BK Solutions, UK (9007)		
10:00 - 10:30: Tea / Coffee break & Expo visit			
	Room A	Room B	
	Workshop Procurement, Moderator Mr Ling Yun, Guangdong Dapeng LNG Company, China	Workshop Fugitive Emission Moderator Barrie Kirkman, BK Solutions, UK	
10:30	Critical Spare Parts - Procurement and Management, Mark Jarman, Lloyds Register Asia, China (9016) TS Legislation (similar to PED) verification procedures and their application, governmental department, mandatory later in 2009, State Inspection Bureau, China	Introduction to valve fugitive emissions for Chinese and expats working in China	
12:30 - 14:00: Lunch break & Expo visit			
	Room A, Chair: Barrie Kirkman, BK Solutions, UK	Room B, Chair: Ron Merrick, Fluor Daniel, USA	
	Sealing	Application	
14:00	New materials in sealing application of high temperature and high pressure valves, Yang Wenguang, Nanjing comtech materials co., Ltd, China (9002)	Nickel-aluminium bronze for seawater-Flattered by comparison, Ron Strang, Shipham Valves, UK (9023)	
14:30	A new seal-designing principle and typical sealing structures - refined from ASME boiler and pressure vessel code, Xu Changxiang, China valve, China (9004)	High Level Safety Devices against Excessive Pressure, Martin Bayart, Weir, France (9008)	
15:00	Investigation on sealing technology of inline ball valves, Huang Shengfeng, Boteli Valve, China (9015)	Hemispherical wedge valve design provides reduced hydrodynamic torque in high liquid flow service, Wei Zhang, Hemiwedge valve, USA (9001)	
15:30	Evolution of sealing technology in ball and gate valves, Cristiano Zanotti, Gasket International, Italy (9029)	Cryogenic valves for the coolest large-scale cryogenic system in the world at the Large Hadron Collider of CERN (Geneva), Raphael Couturier, Velan, France (9027)	
16:00	Pressure locking and thermal binding in wedge gate and parallel slide gate, Donald H. Johnson, Crane, USA (9033)	Valve design for extremely corrosive and poisonous hydrofluoric acid in alkylation service, Duc T. Tran, Crane, USA (9036)	
16:30	Factory practice on latest fugitive emission standard, Neway, China	Benefits of forged valve design for nuclear and energy applications, Michel Monier, Velan, France(9030)

Please note:

* Payment in RMB includes 5% sales tax.

** Valve World Asia 2009 Conference Proceedings will be made available **ON LINE FREE** to all Conference Participants.

*** **Valve World Asia 2009 Official Conference Dinner** is an additional fee which must be paid in advance. Please indicate above if you wish to join the Valve World Asia 2009 Official Conference Dinner

Payment

You can either pay in Euro's by creditcard or in RMB by bank transfer. Details regarding payment via bank transfer in Euro or in RMB will be supplied upon receipt of registration form.

American Express Mastercard Visa **for** _____ **Euros**

Credit card number _____ Card Verification Code (CVC)* _____ Expiration date _____

Cardholder's Name _____ Cardholder's Signature _____

* In addition to the credit card number, a card verification code (CVC) is required. This is new, and has been introduced to provide more security for both the customer and the mail order company. We will not be able to process credit card transactions without a verification code. For Visa and Mastercard/Eurocard you can find your CVC on the reverse side of your credit card, printed into the signature filed. It is a three-digit number. The full credit card number is reprinted in the signature box and at the end of the number is the verification code number: For American Express the verification code number is a four-digit number on the front of the card above the credit card number on either the right or the left side of your American Express credit card.

Cancellation Policy

Cancellations in writing prior to September 1st 2009 will be subject to a Euro 50 processing fee. Refunds will not be granted after September 1st 2009. Refunds will not be given for no-shows after the conference start date.
